

AIC Again Ranked #1 IT Consulting Firm in Minneapolis/St. Paul

MINNEAPOLIS, MINNESOTA

Analysts International Corporation (AIC) has once again been ranked the #1 IT Consulting Firm in the Minneapolis/St. Paul metro area, according to the Minneapolis/St. Paul Business Journal. This is the eighth consecutive year that AIC has held the #1 spot on the list, which is ranked by annual number of hours billed. AIC was founded in Minneapolis in 1966 and has maintained its headquarters here since its inception.

“AIC has been a respected IT Consulting firm here and nationally for almost 50 years,” said Kari Elias, Managing Director of the AIC Minneapolis/St. Paul branch. “Our team is honored to be part of the legacy and the future of this great company. We’re making a positive difference for our consultants, our clients, and our community. What’s better than that?”

“This is an outstanding achievement,” said Raj Sardana, President and CEO of ACS Group, AIC’s parent company. “We are extremely proud of this accomplishment and of our continued success in the IT industry,” added Sardana. “I would also like to take this opportunity to personally thank our consultants for their hard work and dedication in serving our clients. We could not have achieved this recognition without them.”

This recognition reflects AIC’s prominence in the industry and the continued opportunity that exists for AIC to serve its clients.
